In re: KJCO (FM) Yuma, Colorado  
Operational Status Inquiry

Dear Licensee:

This letter concerns the notification (copy enclosed), received August 9, 1993, that FM Station KJCO would "probably have to be off the air another five days or so" to undergo "some very needed repairs."<sup>1</sup>

Section 73.1740(a)(4) of the Commission's Rules permits stations to discontinue operations for a period not to exceed thirty days. A search of our records does not reveal any notification that FM Station KJCO has resumed operations pursuant to the minimum operating schedule requirements of Section 73.1740(a)(1) of the Rules. Further, we have no record that a request, filed pursuant to Section 73.1635 of the Rules, for special temporary authority to remain silent has been filed with this office.<sup>2</sup>

Accordingly, you are required to clarify KJCO's operational status by informing this office, in writing within twenty days of the date of this letter, of the date the station's operations resumed or, in the alternative, of the station's need for special temporary authority to remain silent. Such a request must detail the steps proposed to resolve the station's problems. If no response is received within the allotted period, actions will be taken that may jeopardize both the station's

<sup>1</sup>Copies of this letter are also being mailed to each officer listed in the most recent Ownership Report (FCC Form 323) for the station.

<sup>2</sup>Any request for special temporary authority must be accompanied by the appropriate certification (suggested format enclosed) regarding Section 5301 of the Anti-Drug Abuse Act of 1988.

In re: KJCO-FM; Yuma, Colorado  
Cen-Ten Productions, Inc.  
Upgrade to Class C3

Dear Licensee:

Pursuant to the Report and Order in MM Docket 89-231, 5 FCC Rcd 2152, 55 Fed. Reg. 12830 (1990), released April 3, 1990 and effective May 18, 1990, the Commission modified the allotment for KJCO-FM to permit that station to specify Class C3 facilities on the present channel [265]. Channel 265A was deleted from the Table of Allotments (47 CFR § 73.202), and Channel 265C3 was substituted therein. KJCO-FM was afforded a period of 90 days from the May 18, 1990 effective date to file a construction permit application on FCC Form 301 for Class C3 facilities. Although the old Class A allotment was deleted, KJCO-FM was permitted to continue operating on the old channel pending the grant of a Class C3 construction permit and the implementation of Class C3 operation on Channel 265.

However, as of this date, no construction permit application on FCC Form 301 for Class C3 facilities has been received.<sup>1</sup> A Class C3 station, being larger than a Class A station, requires greater protection from encroachment by other stations. Thus, KJCO-FM is presently receiving the benefit of Class C3 protection while only providing the service of a Class A station. Failure to implement Class C3 facilities in a timely manner constitutes "warehousing" of unused spectrum to the preclusion of other potential users seeking to provide additional broadcast service to the public. Thus, your unfilled Class C3 allotment could result in your being made a party to an allocation rulemaking seeking to downgrade the Yuma, CO Channel 265 allotment.

---

<sup>1</sup> As a Class C3 station, KJCO-FM is fully spaced under 47 CFR § 73.207 of the Commission's rules at its presently licensed transmitter site. To preserve Class C3 facilities, KJCO-FM would need to specify an effective radiated power between 5.6 kW and 23 kW, assuming that the antenna height above average terrain (HAAT) remains 104 meters. Alternatively, KJCO-FM could specify Class A facilities between 2.5 kW and 5.5 kW ERP (still assuming a HAAT of 104 meters) and request to be downgraded to Class A in the Form 301 application.

Please note that, if you intend to apply for Class C3 facilities, you must submit a construction permit application on FCC Form 301.<sup>2</sup> If this application is filed before any conflicting rulemaking is initiated, the application will take precedence. If filed later, the application will be subject to the outcome of the rulemaking proceeding. Report and Order, Docket 91-348, 7 FCC Rcd 4917, 57 Fed. Reg. 36018, released August 4, 1992. If you do not intend to apply for Class C3 facilities and wish to remain a Class A station (with no changes to the present operation), you must submit an application on FCC Form 302-FM to modify KJCO-FM's license and include a statement specifically requesting that the Yuma, CO Channel 265 allotment be DOWNGRADED to Class A status.<sup>3</sup> Once downgraded, any future attempt to upgrade the Yuma, CO Channel 265 allotment will require a new Petition for Rulemaking. Forms 301, 302-FM, 155 (the Fee Form to accompany the Form 301), and the Mass Media Services Fee Filing Guide can all be obtained from the Commission at (202)-632-3676. It is suggested that a copy of this letter be attached to any filing to facilitate the Commission's processing of that filing.

Sincerely,

A handwritten signature in black ink that reads "Dennis Williams". The signature is written in a cursive, flowing style.

Chief, FM Branch  
Audio Services Division

<sup>2</sup> Because the rulemaking to upgrade KJCO-FM to Class C3 [Docket 89-231] commenced prior to May 21, 1990, KJCO-FM is required only to file the minor change application fee with the FCC Form 301 application, and need not submit the rulemaking fee. See Fee Collection Program, Gen. Docket 86-285, 5 FCC Rcd 3558, 55 Fed. Reg. 19148 (1990).

<sup>3</sup> No filing fee is required for this Form 302-FM modification-of-license application.
